

IMPORTANT INFORMATION

Regarding the water pump

Water from your shower, toilet, washing machine and sink go to a foul water sewer to be treated at a wastewater treatment pump.

If the drainage system is not used correctly, pipes will block frequently incurring a call out and in worst cases, lengthy inspections and remedial works.

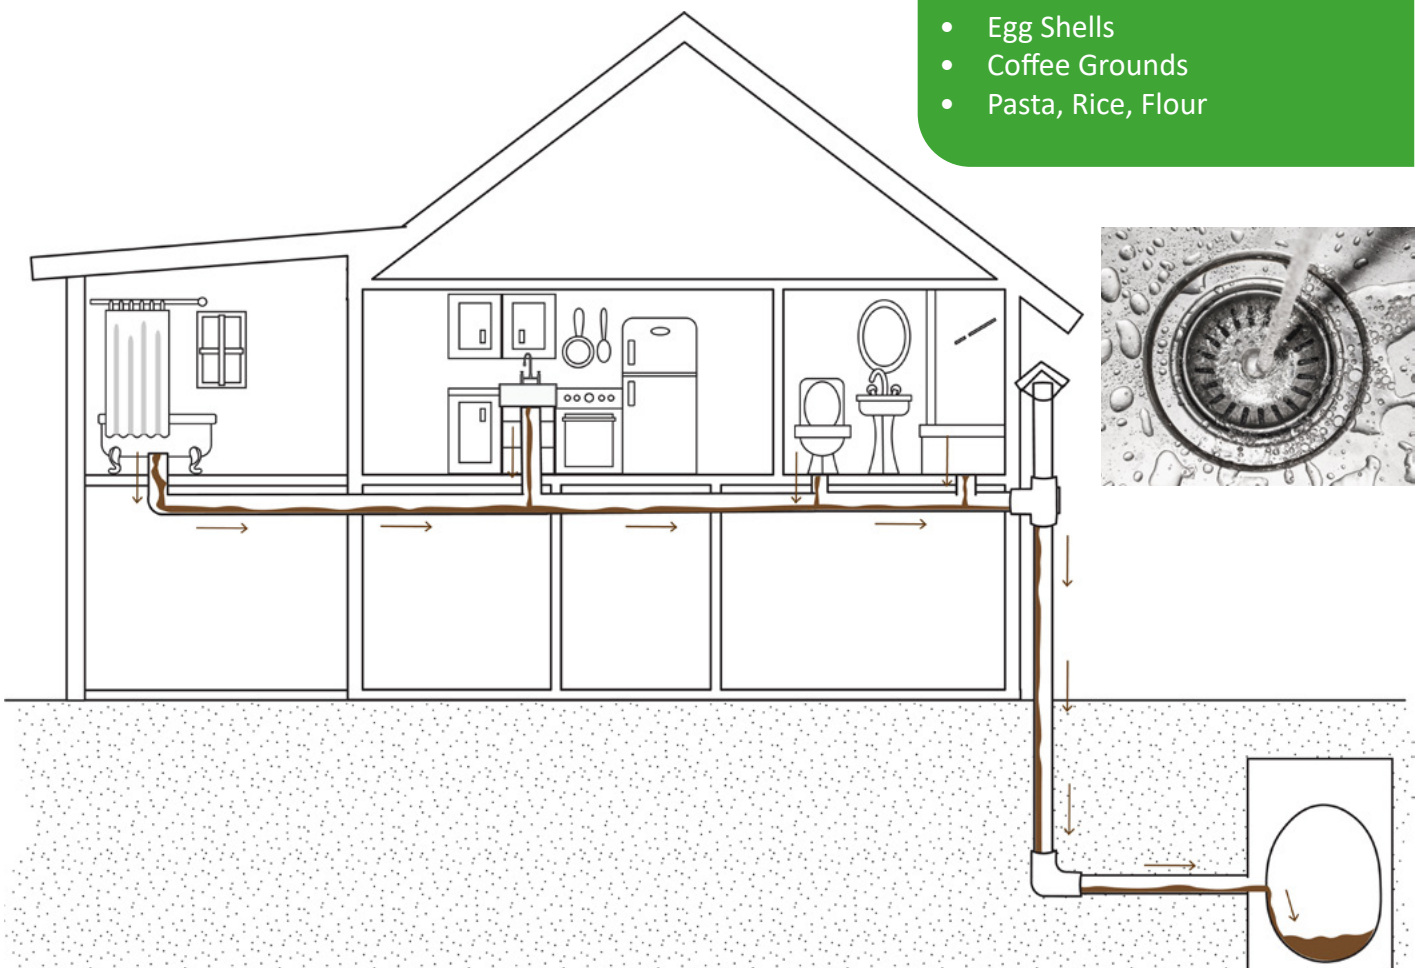

The use of a sink strainer will allow water to pass through, but not larger items.

What not to flush down the toilet:

- Baby Wipes
- Cleaning Wipes
- Feminine hygiene products
- Paper towels
- Trash of any kind

What not to put down the drain:

- Cooking Oils
- Grease and other Fats
- Egg Shells
- Coffee Grounds
- Pasta, Rice, Flour

Please contact Remus Management if you suspect your pipes are backing up or sense an odour coming from the drains at admin@remus-mgmt.co.uk
